

Written in December, 2001 by students in my calculus class.

OH CALCULUS, OH CALCULUS!
(sung to the tune of Oh Chanukah, oh Chanukah)

Oh Calculus, Oh Calculus
Let's find the derivatives,
We have (insert your teacher's name),
We learn better than the other kids.
Use the calculator with the E-D Game
All your Christmas calculus songs are really lame.

And while we are studying,
The candles are burning low.
That's low d-high less high d-low to remind us of all that we know,
That's low d-high less high d-low to remind us of all that we know.
